

SETTHAWUT KIEEBUMRUNG

Address: 1/809 Supalai Park Khae Tiwanon Condo, Pracharat Road, Talat Khwan Sub-district, Mueang Nonthaburi District, Nonthaburi 11000
Phone: 0997345847
Email: Setthawut09902@gmail.com
Date of Birth: 16 JUNE 2005
Nationality: Thai

PERSONAL INFORMATION

Computer Engineering student at Rajamangala University of Technology Phra Nakhon, with experience in web application development using React, JavaScript, Python, Firebase, and Supabase, including the application of Gemini API. Committed to bringing technical skills and creativity to build software that meets real-world needs, while being ready to learn and grow alongside the modern era.

EDUCATION

2024 - PRESENT

Faculty of Engineering | Computer Engineering
Rajamangala University of Technology Phra Nakhon
GPAX: 3.10

2021 - 2023

Mathematics-Science Program
Niramon Chumphon School
GPAX : 3.30

SKILL

- Programming Languages: Python, Java , C, JavaScript
- Frontend Tools: React, Next.js, CSS, Bootstrap,HTML
- Backend & Database Tools: Node.js, Firebase, Supabase
- AI / Data Tools: Gemini API ,Streamlit
- Software / Developer Tools: GitHub, VS Code

PROJECT

1. The Development of Online Hotel Booking Web Application Developed a web application for accommodation services, supporting temporary and daily booking options, complete with real-time room availability status checking and a comprehensive display of facility information. Technologies Used:

- React, JavaScript, HTML, CSS, Tailwind CSS
- Supabase (Database and Backend system), Firebase (Website Hosting system)

2.Queue number display system for small shops

- Developed a queue management system using the PIC16F877A microcontroller and Assembly language, simulated via PICSimLab.
- Key Features: Real-time display using a multiplexed 7-Segment (preventing flickering via TMR0 Interrupt) and an LCD 16x2, with built-in logic to prevent over-calling beyond issued tickets.
- Technologies Used: PIC16F877A, Assembly Language, PICSimLab, 7-Segment, LCD 16x2

3.Personal Portfolio Website

- Developed a personal website from scratch to showcase personal information, projects, skills, and educational background using HTML, CSS, and JavaScript.
- Designed a clean and modern single-page layout with structured sections (About, Skills, Projects, Education, and Contact) and deployed the application on Firebase Hosting.
